Health -Certificate

DESCRIPTION OF GOODS:

Apifonda® is a ready-made feed in paste form, with a special sugar spectrum designed for honey bees. Apifonda contains exceptionally pure, micro-fine sugar crystals, covered with a syrup film of glucose syrup.

Apiinvert® is an exceptionally pure, ready-made sugar syrup used for the feeding of bees. It consists of sugar (sucrose), glucose and an increased content of fructose. Apiinvert® has an ideal consistence and does not crystallize in the honeycombs.

Apipuder® is a special icing sugar used for the production of an apicultural feed paste. After the addition of water, Apipuder forms a classic feed paste suitable for queen breeding and forming of bee colonies. The feed paste can easily be mixed with supplements.

We, Südzucker AG Mannheim/Ochsenfurt, hereby certify, that the above mentioned products are fit to be used as nutrition for bees. The delivered products and its packaging comply with the relevant German and European Law. The products are produced and controlled according to the Südzucker quality standards.

Best regards

SÜDZUCKER AG Mannheim/Ochsenfurt
